Sutton Coldfield Gateway
Have Your Say
Have Your Say

We want you to have your say on our proposals to develop an improved bus interchange and public realm for Sutton Coldfield.
Proposed Changes

- New bus interchange (site 1 – see map within booklet)
- Pedestrian transformation of Lower Parade
- Improve the arrival experience for visitors to the town centre
- Station entrance redevelopment
- One way buses through Lower Parade
- Wayfinding to Sutton Park

The aim of the proposed project is to develop a new Gateway to Sutton Coldfield town centre and Sutton Park. The Gateway will enable residents and businesses in the West Midlands to access a High Speed 2 station within 45 minutes.

The majority of buses (around 80%) will move from Lower Parade to the new bus interchange, near to the rail station making changing between bus and rail quicker and easier for customers.

The project will improve the arrival experience for visitors into Sutton Coldfield and improve pedestrian and commuter access to the town centre. The development of a new Gateway will boost regeneration in the town and support growth as proposed in the Birmingham Development Plan.
Scheme Map
1. Proposed New Bus Interchange
2. Existing Railway Station
3. Improved Public Realm
4. Wide Pedestrian Crossing
5. Enhanced Green space
The examples below show similar projects that have been delivered and show what different parts of the scheme could look like.

Whitechapel Station, Transport for London

Chester Bus Interchange
Funding
The project is due to be funded from the HS2 Connectivity Programme. Funding will depend on approval of an Outline Business Case to further develop the scheme.
