Notice of Sprint works on the A34 Walsall Road

Sprint works outside properties 514 – 562 Walsall road

Sprint is a bus priority corridor joining the A34 with the A45 to create one continuous route. The main construction works along the A34 part of the corridor between Perry Barr station and the Scott Arms junction, are being carried out by Fitzgerald Contractors on behalf of Transport for West Midlands (TfWM).

We will be working outside properties 514 - 562 Walsall Road, starting week commencing 2nd August for up to 10 weeks. This will allow us to complete the bus stop opposite Gainsborough Road, construct new parking bays outside number 522 – 544, and install new drainage and lamp columns.

Although access to the above properties will be affected whilst excavation and surfacing is taking place, we will liaise with you before any work starts to ensure that we can provide access when necessary.

We will notify you of further work as construction of various sections progresses. Please contact us if you require more details.

The Sprint corridor will link Walsall with the centre of Birmingham, Solihull and Birmingham Airport. It will bring benefits for all bus passengers by providing more reliable, regular and predictable journey times, connecting our region and protecting our environment.

The first phase is due to open in the summer of 2022.

Duration of works

Work on the parking bays area will begin week commencing 2nd August and is expected to take 10 weeks to complete.

What to expect

Work will take place from Monday – Friday between 7.30am and 5pm. Please be aware that these times may change.

Noise from on-site machinery and construction vehicles.

What we will do

We'll keep all sites safe and secure, keeping disruption to a minimum and ensure all traffic management signs are clearly displayed. We will keep you informed.
